

**Manufacturer’s Tax Credit Certificate – Nonbusiness Energy Property Credit
Internal Revenue Code Section 25C**

The Consolidated Appropriations Act, 2021 (P.L. 116-260) amended section 25C, which provides a tax credit for the purchase and installation of “qualified energy property,” including residential heating and cooling equipment meeting certain energy efficiency requirements. American Standard Heating and Cooling, a brand of Trane U.S. Inc., certifies that the gas furnaces listed below have an annual fuel utilization efficiency (“AFUE”) of no less than 95% according to the Air Conditioning, Heating & Refrigeration Institute’s rating system, and therefore, may be eligible for the section 25C credit if placed in service by December 31, 2021. Confirm eligibility of your matched system by visiting www.ahridirectory.org or by contacting your installing dealer.

Manufacturer: Trane U.S. Inc., 800-E Beaty Street, Davidson, NC 28036

Class of “qualified energy property”: natural gas furnaces

Other Important Homeowner Information

There are other important requirements and limitations homeowners must also meet to qualify for the section 25C tax credit, such as the “qualified energy property” must be installed in the homeowner’s primary residence. American Standard recommends that homeowners consult a tax professional to ensure they meet all requirements. The Internal Revenue Service is responsible for implementing and administering the section 25C tax credit.

Under penalty of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.
